

## DEPARTMENT OF DISABILITIES

### SUMMARY

The Maryland Department of Disabilities, formerly the Governor's Office for Individuals with Disabilities, was created in response to the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 (ADA). These acts require that all programs, activities, services and employment opportunities offered to the general public also be accessible to individuals with disabilities. The establishment of a program entitled Access Maryland addresses this requirement. This program provides for accessibility modifications to eliminate architectural barriers in State-owned facilities. Accessibility modifications include signage, visual fire alarms, chairlifts, elevators, ramps, curb cuts, automatic door openers, and accessible rest rooms, including necessary fixtures and accessories.

## FY 2009 - FY 2013 Capital Improvement Program State-Owned Facilities

### DEPARTMENT OF DISABILITIES

**Budget Code: DA0201**

**Accessibility Modifications (Statewide) FY 2009 Total **\$1,600****

Provide funds to eliminate architectural barriers in State-owned facilities and provide programmatic access for Marylanders with disabilities. This will permit the State to comply with the Americans with Disabilities Act of 1990, which mandates that physical access be provided for all State services. These renovations are a long-term effort and will require funding beyond FY 2013. The FY 2009 budget includes funding for 13 new projects: eight in higher education facilities, two in state office buildings, one in a state park, one in a state hospital, and one in a state correctional facility.
