The LSI-R is a quantitative survey of attributes of offenders and their situations relevant to their decisions regarding level of service. The LSI-R is composed of 54 items. Items are either in a "yes-no" format, or in a "0-3" rating format, based on the following scale:

- 3: A satisfactory situation with no need for improvement**  
**2: A relatively satisfactory situation, with some room for improvement evident**  
**1: A relatively unsatisfactory situation with a need for improvement**  
**0: A very unsatisfactory situation with a very clear and strong need for improvement**

Place an "X" over the appropriate response for each question, whether it be a simple "yes" or "no", or a rating number. The answers will transfer through to the scoring sheet beneath for quick tallying of the LSI-R score. Be sure to see the manual for guidelines on rating and scoring. For missing information, circle the question number.
